Busbar		Pure copper + tin plated Can withstand current: 250A																	
Remarks!	1.This item is 280AH AND 230AH EVE , CATL 302AH item,the QR code is intact,Grade A,Brand new.																		
	2.The product come with Bus bars and Bolts , One Battery will come with one set bus bar and bolt																		
	3.Screw size:M6																		
	4.We will test all the battery Voltage and Internal resistance Voltage:The deviation less than 0.015V Resistance:The deviation less than 0.1mΩ																		
Payment Method	Paypal (Buyers need to pay 5% paypal fee)
